Caution:

Equipment damage hazard. Do not operate the cooling system if the outdoor temperature is below 50 °F (10 °C) to prevent possible compressor damage.

Una version en espanol de este manual se puede descargar en la pagina web de la compania.

Thermostat Operation

- 1 LCD Display
- (2) Glow in the dark light button
- **3** Fan Switch

- 4 System Switch
- (5) Temperature Setpoint Buttons
- **6**) User Buttons

- 1 LCD Display
 See page 4 for details about this display read out.
- (2) Glow in the dark light button
 The glow in the dark light
 button will self illuminate
 for several hours after
 exposure to ambient light.
 This button turns on the
 display light when pressed.
- Select ON or AUTO. ON will run the fan continuously.
 AUTO will cycle the fan on only when the heating or cooling system is on.

- System Switch
 Selects the operation mode on your HVAC system.
 Selecting HEAT turns on the heat mode. Selecting COOL turns on the air conditioning mode.
 Selecting OFF turns both heating and cooling off.
- Temperature Setpoint Buttons

 Press the ▲ or ▼ buttons

 to select the desired room
 temperature.
- (6) User Buttons Use these buttons to set up your programming options. Refer to the next page for detail.

Caution:

When the battery icon papears replace your AA batteries immediately. Failure to do so may result in your heating & cooling system becoming inoperable. Freezing or over heating can occur.

- Indicates the current room temperature
- (2) Time and day of the week
- (3) **Low Battery Indicator:** Replace batteries when this indicator is shown.
- **4** Button Options
- (5) **Program Time Periods:** This thermostat has 4 programmable time periods per day.
- 6 System Operation Indicators:
 The COOL ON **, HEAT ON or FAN icon will display when the COOL, HEAT, or FAN is on. Note: The compressor delay feature is active if these icons are flashing. The compressor wil not turn on until the 5 minute delay has elapsed.
- (7) **Hold** is displayed when the thermostat program is permanently overridden.
- 8 **Setpoint:** Displays the user selectable setpoint temperature.

Important:

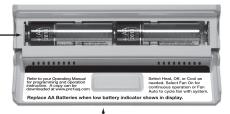

The low battery indicator is displayed when the AA battery power is low. If the user fails to replace the battery within 21 days, the screen will only show the low battery indicator but maintain all functionality. If the user fails to replace the batteries after an additional 21 days (days 22-42 since first "low battery" display) the set points will change to 55°F(Heating) and 85°F(Cooling). If the user adjusts these setpoints away from these it will hold for 4 hours then return to either 55°F or 85°F. After day 63 the batteries must be replaced immediately to avoid freezing or overheating because the thermostat will shut the unit off until the battery is changed.

Battery Door Information

Replace with 2 AA Alkaline Batteries. High quality Alkaline batteries are recommended.

Use the finger bevel on the lower portion of the thermostat to open the easy access battery door.

Simple operating instructions are found on the back of the battery door.

Temporary and Permanent Hold Feature

Temporary Hold: The thermostat will display **HOLD** and **RUN SCHED** on the left of your screen when you press the ▲ or ▼ key. If you do nothing, the temperature will remain at this setpoint temporarily until next time period. Your program setpoint will then replace your temporary setpoint.

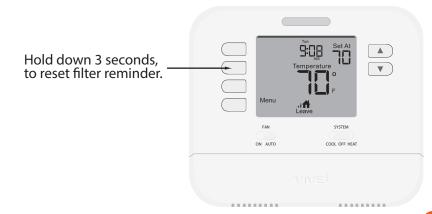

Permanent Hold: If you press the **HOLD** key at the left of your screen, you will see **HOLD** appear below the setpoint temperature in the display. The thermostat will now permanently stay at this setpoint and can be adjusted using the ▲ or ▼ keys.

To return to program: Press the **RUN SCHED** key at the left of your screen to exit either temporary or permanent hold.

Filter Change Reminder

If your HVAC contractor has configured the thermostat to remind you when the air filter needs to be changed, you will see **FILT** in the display when your air filter needs to be changed.

Resetting the filter change reminder: When **FILT** reminder is displayed, you should change your air filter and reset the reminder by holding down the second button from the top left side of the thermostat for 3 seconds.

Set Time

- **1.** With system switch set to OFF, press the **MENU** button
- 2. Press SET TIME
- **3.** Day of the week will be flashing. Use the or key to select the current day of the week.
- 4. Press NEXT STEP
- **5.** The current hour is flashing. Use the or key to select the current hour. When using 12-hour time, make sure the correct a.m. or p.m. choice is selected.
- 6. Press NEXT STEP
- **7.** Minutes are now flashing. Use the or key to select current minutes.
- **8.** Press **DONE** when completed.

Set Program Schedule

To customize your program schedule, follow these steps Weekday:

- 1. Select **HEAT** or **COOL** with the system switch. **Note:** You have to program heat and cool each seperately.
- 2. Press the MENU button
- **3.** Press SET SCHED. Note: Monday-Friday is displayed and the WAKE icon is shown. You are now programming the wake time period for the weekday setting.
